

Play Musical Statues

Play some music and get dancing. When the music stops, stop dancing and be very still. The last one to be still is out.

Go on a walk and identify anything you can hear!

You might hear a car, a helicopter, leaves rustling in the trees, music, people talking...

Little Listeners

The Key Game

Sit in the middle of the floor blindfolded. Shake a set of keys anywhere around the room. The blindfolded player stays where they are and points in the direction of the jangling keys.

Use the link to discuss what you can hear in these short, distraction-free audio clips!

Create a band

Find different objects around your home and use a wooden spoon to tap them.

What makes a loud noise, a quiet noise, a soft noise or a hard noise?
